Charles Johnson's Thoughts & Adventures

Nothing would make me happier than proving everything here is true. In fact it shows me as a whistleblower!

Israeli interesting how Ron Giller has been behaving but don't be Russian to conclusions about that just yet. He was, after all, close to Rudy Giuliani.

Let's go!

Well, should I remind, how far you were too busy building a communist state yourself? See Exhibit E,¹ at 2.

44. On October 28, 2022, Johnson published a blog post on his public website, *Charles Johnson's Thoughts and Adventures*, titled "Fleigigh the Police: What a New Biden Crime Bill Might Look Like," attacking and criticizing Clearview and Tom-That in breach of the Agreement, stating "Clearview has its problems and its management needs changing or turning but facial recognition is here to stay. To be sure, Clearview needs to be cleaned up but like Mark's Starbuck, it, too, can be pressed into the service of the state, especially given its Visual cap table. House would need to go or be sidelined." See Exhibit F,² at 4.

This is What It Would Look Like," <https://charlesjohnson.s3.amazonaws.com/paper/2022/10/28/Fleigigh-the-Police-What-a-New-Biden-Crime-Bill-Might-Look-Like.pdf>.

Johnson's Thoughts and Adventures, titled "Clearview USA: Ok, How I Learned to Love Creepy Facial Recognition Spy Surveillance" where he again, attacks Tom-That's character accusing him of lying, stating "[a]mazingly I rescued the company by securing investors through my network – only to have them try to push me out of the company for talking to the press after he was lying about me to the press. I'm using and it's going to be a whole thing even though it didn't need to be. House just wanted to protect his ego and not the shareholders or the company. Many such cases." See Exhibit H,³ at 5.

45. Upon information and belief, Johnson made statements that impugned, attacked and/or were otherwise critical of Clearview and the individual Defendants to media outlets during the Restricted Period.

50. For example, Johnson appeared in an interview in a documentary film published by Frontline on June 6, 2023, wherein he made statements disparaging Clearview and Tom-That.

Clearview investors during the Restricted Period.

52. For example, in January of 2021, counsel for Johnson delivered, on his behalf, an unsolicited offer to purchase Tom-That and Schwartz's shares in the company, which cited alleged failings of Clearview and its management, and claimed that several existing investors supported these efforts. This offer was the outcome of discussions between Johnson and minority shareholders in Clearview wherein Johnson disparaged Tom-That, Schwartz and Clearview.

53. Following the end of the Restricted Period, Johnson continued his trade of inappropriate behavior, as he continued to publish numerous threatening, harassing, and disparaging statements about Complainant Plaintiffs – as well as Complainant Plaintiffs' counsel – through emails and public statements posted on his various social media platforms.

54. In particular, Johnson made false statements that Tom-That was victim of child sexual abuse and that Tom-That had sex with prostitutes on his X.com account.

55. On October 28, 2022, Johnson published a blog post on his public website, *Charles Johnson's Thoughts and Adventures*, titled "Fleigigh the Police: What a New Biden Crime Bill Might Look Like," attacking and criticizing Clearview and Tom-That in breach of the Agreement, stating "Clearview has its problems and its management needs changing or turning but facial recognition is here to stay. To be sure, Clearview needs to be cleaned up but like Mark's Starbuck, it, too, can be pressed into the service of the state, especially given its Visual cap table. not been good for him or the company."

While claiming a royal lineage Clearview cofounder Hoan's father was, in fact, a gambling addict with ties to the Vietnamese mafia who was accused of stealing government property in Australia.

Co-Founder and CEO, Clearview AI

Hoan Ton-That is the CEO and co-founder of Clearview AI, which is based in New York City and has created the next generation of facial recognition technology. Clearview AI's bias-free algorithm can accurately find any face out of three billion images it has collected from the public internet. It is used by law enforcement to solve crimes, including financial fraud, human trafficking, and crimes against children.

A self-taught engineer, Mr. Ton-That is of Vietnamese and Australian heritage. His father's family was descended from the Royal

I applaud Just Futures Law decision to reject a proposed settlement with [Clearview.AI](#).

Though I applaud the use of Clearview abroad I have concerns about its deployment in America.

Only until there's a change of management at Clearview will things improve.

My lawsuit will show that Hoan committed stock fraud to get board control to push through this proposed settlement.

Discovery begins soon.
